

# Mango Agribusiness Research Program

## Session 3: Mango Quality

San Tram Anh

19-22 March, 2018

Information  
Markets  
Biosecurity  
Quality

# “Allow me to introduce myself”

## ANH TRAM SAN

Researcher

PhD, MSc

PhD in horticulture &  
post-harvest technology

Working at the Sub-  
institute of Agricultural  
Engineering &  
Postharvest Technology

11+ years of experience  
on post-harvest  
technology

Involved 14 projects  
(ACIAR, ADB, CARD,  
NZAID, UNIDO, MARD)

# My research interests

- Undertaking Research and Development to underpin, support and grow the profitability of horticultural and food industries in Viet Nam and overseas.
- Current projects involve specialty mango packinghouse, mango storage and processing.

## My interest in Mango Quality (SRA) Project

- The comparison of physical and eating quality assessments in fresh mango supply chains across Asia countries.
- The differences of operation of mango supply chains across Asia countries.
- How to satisfy the customer requirements regarding mango quality and prices?
- Opportunities for Vietnamese mangoes export to China and Hong Kong.
